

# Every Child's A Star

Written by Khaelidawne Quirk/Danny O'Flaherty

## CHORUS:

Each milestone is a victory; every child's a star  
Each is born a miracle, just the way they are.  
And every one can understand the meaning of a smile;  
Around the world a hug means love to every single child.

So with love we watch them as they play their games.  
Every child is different; no one is the same.  
Some can learn easily to run, jump, and play.  
While others face a challenge every single day.

Every child is special; they are one of a kind.  
They come in every color as everyone will find.  
Whether they are "perfect", healthy, strong, and bright,  
Or if they come with special needs; they're precious in our sight.

"You are my inspiration", each mother tells her child  
As she sends them off to play with a tender smile.  
"How brave you are!", each mother says as she hugs them tight.  
Every child's a miracle; precious in our sight

## CHORUS 2 TIMES
